

7 Good Rules of the Trail!

THE MSF
DIRTBIKE
SCHOOL

Ride off-road vehicles on public land is a privilege that must be respected. Follow these seven common-sense tips and enjoy the rewards of responsible recreation

- 1. STAY ON THE TRAIL**- Riding off the trail even in small amounts has negative impacts on our environment
- 2. TRAIL-RIDING IS NOT A RACE**- Most public trails have two-way traffic, go slow around corners and if you come upon others trail users, be courteous.
- 3. DON'T RIDE DOUBLE**- ATV'S and dirt bikes are designed for a single rider. Adding an extra person is particularly dangerous for smaller and inexperienced riders.
- 4. CARRY OUT WHAT YOU CARRIED IN**- It's important to properly dispose of your garbage, it can be harmful to wildlife and the environment.
- 5. LEAVE WILDLIFE ALONE**-While you are out on our trails you may see a deer, snake or turtle...just leave them alone, this is their home.
- 6. BE WARY OF WATER CROSSINGS**-Riding in wet areas damages the terrain and harms wildlife. Cross only at designated points.
- 7. LESS SOUND MEANS MORE GROUND**-Only quiet bikes are welcome in the woods.
